FOREWORD

Once again it is my privilege to express our heartfelt thanks for your many valued orders and kind comments on the quality of the blooms received from our bulbs. It is pleasing to know that our efforts which are aimed at satisfied customers are meeting with so much success. We are always glad to hear from you — your words of praise are one of the satisfactions of being in business. But if in any way you are not fully satisfied, we are most anxious to know that too — only then are we able to rectify our shortcomings and give you full satisfaction.

This year we are introducing four of our own seedlings and trust they will meet with your approval. We think they are all worthy varieties with Burgandy and Fashion Flame of particular interest to the show fans, Blushing Bride of interest to the cut flower grower and Bronze Beauty of interest to all who like something unusual and beautiful too.

Our crop of bulbs is the best we have ever grown — we are proud of them and are proud of having the opportunity of offering them to our many customers. We are confident that they can add to the beauty of your glad garden next summer.

As usual we have added many new varieties to our list and believe they are improvements on existing varieties. These we select from the hundreds of varieties grown in our trial gardens from which only a comparative few are chosen to enter our listing. We do not claim to grow all the meritorious varieties but we feel sure that our catalog contains a most comprehensive listing of exhibition winners, the most popular commercials, and the most promising novelties for the home gardener. Our motto has always been — only the best is good enough.

Sincerely,
ARTHUR ARENIUS

Discounts do not apply to new introductions, collections, or wholesale prices.

On cash orders from the wholesale list — 5% discount on orders from \$25.00 to \$100. 10% discount on orders over \$100.00.

EXTRAS and OVERCOUNT — We give extras with all orders varying with the size of the order. Just mention some of the varieties you would like to buy and we will do our best to please you. We are noted for generous overcount of number, quality, and size.

GUARANTEE — We guarantee satisfaction in every way possible. We attempt to send out only clean, healthy, true to name stock, and if in any way you are not satisfied let us know immediately and we will do our utmost to please you. Also if you are pleased we are always glad to hear from you.

SHIPPING DATES — Unless otherwise requested retail orders will be sent out between March 15 and April 15 in the order received. Wholesale orders will be shipped out as soon as possible after receiving them. *Order early so as to be sure we are not sold out of the varieties you want.* This also gives us more time to fill your order with less chance of error and less overtime.

BULB SIZES — The retail list contains three sizes —

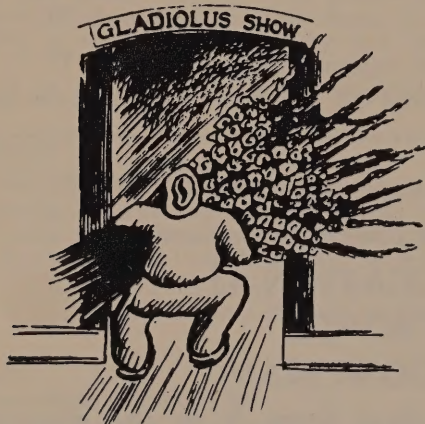

Large, 1 1/4" up

Medium, 3/4" - 1 1/4"

Small, 3/8" - 3/4"

Large size bulbs give the largest bloom. However, medium sized bulbs will give excellent spikes about 75% as large. Most small bulbs will bloom and at the same time grow fine bulbs for the following year.

VARIETY LISTING — In the descriptive list the variety name is given first, followed by the originator's name, its show classification and the approximate number of days needed for it to bloom. We have attempted to give a description of the varieties as we see them, listing important faults as well as good points.

Just loved that LAVENDER GEM — just had to order more!

Mr. A.G., Somerville, N. J.

The collection I got from you last year was very successful — can hardly wait to get them in the ground again!

FAVORITES OF 1961

Here are eight lists of varieties representing each person's favorites as they saw them last year. The first lists are the favorites among the recent introductions while the second lists are the favorites among the standard low priced varieties. Mrs. Arenius and Helen (Mrs. Art, Jr.) both have seen all the varieties in our field as well as at many shows so are well qualified to comment. They have the added advantage of liking a glad because to them it is the most beautiful without the influence of statistics such as size, number open, number of buds, height, etc.

Last year I ordered the RAINBOW COLLECTION and the colors were beautiful — also had some of the RUFFLED COLLECTION and they were lovely.

Mrs. R. H. B., Pittsford, Vt.

APPRAISING THE NEWER ONES

GLACIER again impressed us with its performance in our fields, while on the show table won at least 8 Grand Championships. As a cut flower our florists want it ahead of all other glads. Another new one RAINIER gave us tall perfect spikes while WHITE FRIENDSHIP continues as our number 1 early cut flower. Other good ones were SNOW VELVET with its fine show spikes along with the precise spikes of ICE FOLLIES and the good cut flower varieties FLORENCE NIGHTINGALE and PROF. GOUDRIAAN.

The whites with throats have such fine varieties as WHITE SAILS, the grand champion contender as well as a good cut flower. SPARKLING EYES, the purple throated beauty, plus the most boldly blotched and delightful little QUEENS PAGE.

Among the popular green varieties we like GREEN ICE with its delicate shade of cool green on tall straight spikes and GREEN WOODPECKER with formal spikes holding 10 open consistently. Also good are early blooming SHAMROCK, the reliable cutter GREENLAND, and ERIN about the greenest of them all.

LANDMARK has taken the cream colored glads by storm winning at least 10 Grand Championships last year. Also capable of top awards are LORELEI and FLORADORA grand cut flowers as well. Early flowering ARES is the leader of the 300 class and a popular cut flower while gorgeously ruffled PARTY RUFFLES and smooth colored JUBILEE are among the most beautiful of all glads.

YELLOW SPIRE continues to gain friends with its top notch exhibition spikes. From Holland the new GOLDBLUE gave tall stately spikes in a most beautiful shade of yellow. Also among our favorites are chartreuse toned LARGO, amber toned GARY — a grand cut flower and two toned D'ARTAGNON and PROFILE, tall easy growing GOLDFIND gave us some of our finest cutting spikes this past summer.

In the deep yellow class REWARD and GOLDEN ROSETTES are fine additions with their tall spikes and gorgeous coloring. They join GOLDEN GLO, GOLDEN WAVES and GOLDEN MIRACLE to make this a very strong class. FORT KNOX continues as our favorite cut flower in this color along with tall red and yellow CONRAD, late blooming GOLDEN SUNSHINE and intense colored CATHERINE BEATH.

Among the buff varieties RIVIERA continues to give tall husky spikes along with smooth colored VIVA both good competitors for giant sized A. B. COUTTS. Also fine are two tone GOLDEN PALOMINO and PACTOLUS a topnotch early cut flower.

The orange colored glads present a dazzling array of color with FORTUNE the brightest of them all and a good spikemaker as well. Gayly colored CABELLERO is one of the most striking of all glads along with deep toned TIGERTONE a medium sized eyecatcher. REGINA continues to be one of our favorites while FIESTA always draws attention in the field. CRONUS is rapidly becoming the leading show variety in this group.

Varieties to watch in the light salmon group are ELF with its perfect exhibition spikes, VISION with its long flower head and many open florets and PARFAIT the leading exhibition miniature. Not to be left out are gorgeously ruffled BERMUDA and GYPSY CARNIVAL the flashy butterfly type variety.

Added to our list of deep salmon glads are enormous GOLIATH, a good exhibition prospect, striking bicolored CIRCUS another good exhibition variety and the All America variety THUNDERBIRD a near perfect spikemaker. Still leading the group is SALMON QUEEN with close competition coming from LIBERTY — both grow big formal spikes. Of interest is the unusual coloring of IRISH ROSE, the tall easy cutting spikes of SUGAR ELL. Also tops for cutting are clean colored MINORET and ruffled CORAL ACE.

In the scarlet class we predict big things for our own FASHION FLAME — watch for it at the shows. Leading on the exhibition table is FIRECRACKER with its brilliant coloring and tall spikes while LITTLE DIAMOND is our favorite exhibition miniature. Still good are FIREFLAME, a most reliable grower, SANS SOUCI, the tall cut flower, ALBERT SCHWEITZER, another good cutter and early blooming LIFE FLAME.

The light pink glads continue to have some of the finest varieties in existence. Among the newer ones are BLUSHING BRIDE, a tall easy grower in a gorgeous shade of soft pink, EARLY SPRING a coming early cut flower, PINK PARASOL with its heavy spikes of pink and white scrumptious PINK PROSPECTOR. Others of interest are JILL with its tall spikes of smooth rosy pink, CORONATION a grand commercial, and giant sized PINK PRIDE.

The deeper pink glads are led by SPIC & SPAN the number one variety of the past decade. Other outstanding varieties are finely formed PINK FAVORITE and 300 sized GEM STATE, capable of open 14 florets at a time. Most reliable cut flowers are early blooming FRIENDSHIP, gigantic PAUL BUNYON and SUMMER QUEEN.

New light red varieties in our list are BANDWAGON, a most formal exhibition variety and HAPPINESS with neat spikes of ruffled glowing red and yellow. Also we like ROYAL STEWART the All America award winner, REDCOAT a good exhibition variety, and early blooming RED SAILS.

The deep red glads present a strong group with WINNEBAGO CHIEF gaining friends with its large formal spikes. Its competition comes from OSCAR another formal giant, HARRISBURGER with its bright clear color, and RED PEPPER one of the best varieties to come out of HOLLAND. A new one to our list, PROMENADE, is the best red with a white throat variety that we have grown.

The black reds have excellent newer varieties in JACK OF SPADES, a coming exhibition variety and the most heavily ruffled, CONGO the giant of this color, DARK BRILLIANCE the present leader for exhibition and TOP HAT our favorite of this group. Others are well known ACE OF SPADES, reliable BLACK PHANTOM, and FESTIVAL, a tall strong grower.

Among our favorites are the many and distinctive colored rose varieties. Excellent new ones are ROSY DAWN, a sport of MODERN TIMES and a grand cut flower variety and CLIMAX one of the most reliable of glads. Others are LOVE SONG, a tall spikemaker with good cut flower qualities, BEN TROVATA a new one from Holland with big formal spikes, and AMBITION a beautiful rose and cream exhibition variety. For cutting TRAVELLER still leads the list with INNOCENCE in a tall pale rose giving us fine early spikes.

Among the medium rose varieties are ROSEDENE, a first early variety in a clear bright rose, GYPSY ROSE, a large tall grower that should become widely grown, GAY PAREE, a good grower with a silver petal edging, and TRITONE, one of the most beautiful and different varieties we have grown. Others in this color are WILD ROSE the best cut flower variety, WILLOW ROSE, a winner at the show table, ROSE SPIRE, the tall cut flower variety, and gayly colored ROSITA. BEN HUR, the new All America award winner should prove to be one of their best varieties.

In the deep rose class BURGANDY looks like an exhibition winner with its full formal spikes and heavy ruffling. DIRECTOR continues to impress with its gorgeous raspberry rose color and full formal spikes. Also good are BRENDA, which has large full spikes in a deep yet lively shade, AVENGER with its neat precise spikes, LYNNE HILL with its distinctive and unusual color, LILA WALLACE a top notch early variety, and BURMA the grand old timer.

The lavender glads have many varieties of outstanding merit. Among these are HIGH FASHION, a coming commercial, LAVENDER FRILLS, a gorgeously ruffled beauty, LOHENGRIN possibly the best cut flower in this group as well as a coming show glad, and tall stretchy LAVENDER SPIRE. Two toned MYSTIC MELODY and LILAC AND CHARTREUSE are certainly different and well worth growing.

Our own LAVENDER GEM was outstanding again this past summer and gave us thousands of good cutting spikes.

Still at the top of the purple varieties is KING DAVID, always a contender for grand champion while quantities of THE RAJAH are grown for cut flower use. The newer EIGHTH WONDER gave us big formal spikes while PURPLE BURMA gave us full lustrous spikes of true purple.

Still the leader of the light blue class is VIOLET CHARM with its tall husky spikes and CARRIBEAN, the All American beauty. Also good are BLUE DIAMOND the nearest of any to real blue, DARK EYES with its pale blue florets and bold violet throat, and PINNACLE with its spectacular spikes. For cutting HIGH LIFE, VENUS and AQUA QUEEN are most useful. Fine additions to this group are the stretchy spikes of well named BLUE RIBBON and SYMPHONY a good prospect for the commercial man.

The deepest color of the dark blue is had by THOMAS A. STONE, while BLUE PETER continues to give outstanding spikes with 7-9 open at once. The giant of this class is SALMANS SENSATION while attracting attention is the unusual color of formal BLUE CONQUEROR. About the healthiest blue variety we have grown is BLUE LOU a deep throated medium blue.

The many and varied smoky varieties always attract the smoky fans and those who like the unusual. Our own BRONZE BEAUTY attracted much attention at the shows last year

as a seedling and we think it is one of the most beautiful of the smokies. **BLUE SMOKE** with its attractive color and good spikes now leads this class on the show table with **TAN GLO** a close second. **COPPER LUSTRE** is very popular with its big spikes on a browning tone, **PRUNELLA** has massive spikes of a rich plum color, **ABIQUA** is the most ruffled of the smokies **VANITY FAIR** the most unusual, and **TONTO** the biggest and strongest growing.

The A. O. C. class has been strengthened by the addition of **TANARAMA** a formal tan toned variety and **DAMASCUS** a grower of topnotch exhibition spikes. Others we like are the All America variety **RUSTY**, huge **HINDUSTAN**, the dark mahogany colored **MANDY**, and the fine spikes of **BROWN LULLABY**.

Also of note are the many varied and beautiful butterfly varieties from Europe's foremost hybridizer Konynenburg and Mark. They represent a new advance in medium sized gladiolus and are of particular interest for home use though some of them are among our leading exhibition varieties. Among the best of these are early blooming **ARES**, a red and yellow beauty, **FEMINA** a gawdy salmon with a red throat bordered yellow, and **QUEENS PAGE** an attractive red and yellow combination. Other newer ones are **LITTLE DIAMOND** and **ELF** top exhibition varieties, **GIPSY LOVE** a red throated beauty, **TOPOLINO** the gorgeous red and yellow variety, **DESIREE**, an attractive deep scarlet, **BIBI**, ivory overlaid with pink, and **SUMMER FAIRY** of reddish salmon color.

BRONZE BEAUTY

(482) Arenius 1961 85 days Parentage Unknown. Seedling #5729

Bronze Beauty is a ruffled large coppery smoky, shading to deeper lines of dark brown on the edges and blending to a bronzy tan interior. This exotic rich blend of colors has heavy substance and is ruffled and fluted opening 6-7 florets on a 55" spikes. Good grower and propagator.

Combines beautifully with fall colors.

FASHION FLAME

(450) Arenius 1961 75 days Royal Stewart x Unknown. Seedling # 5627

We are proud to introduce this seedling of the famous All America variety Royal Stewart. It is an improvement over it in two vital respects; color and health. The color is a clear, light red, and so far the health and propagation have been excellent. It consistently produces long straight spikes that open 8-9, in formal double row placement.

Fashion Flame should prove a grand exhibition variety, but best of all it promises to be a fine commercial cut flower as well.

ROSY DAWN

(454) Shenetsky 1961 75 days Sport of Modern Times

This is a lighter sport, blending to a large cream center, of the Florists Favorite, Modern Times. It opens 7-8 4 1/2" florets on a tall 5 ft spike. A good propagator and makes healthy bulbs. Opens well when cut in tight bud and is a good keeper so we look to see it make a good commercial cut flower variety.

Any size Bulb — \$1.00
1 Bulb and 10 Bulblets — \$2.00

The OUT-OF-THE-ORDINARY COLLECTION was so unusual and beautiful — as always such clean, healthy bulbs. My glads still go to church and see the sick and shut-ins. Everyone enjoys the beautiful colors so very much. May God bless you always.

Mrs. I. G. K., Robersonville, N. C.

For a Christmas gift we had your RAINBOW COLLECTION which was just wonderful!

BURGANDY

(448) Arenius 1961 80 days Boise Belle x Kashmir. Seedling #5769

As the name implies the color of this glad is a sparkling wine colored rosy red; a little deeper in the throat. It opens 8-9 extremely ruffled well placed and faced florets of 20-22 buds, on a tall 5 ft. spike. This should be a winner in its color class at the shows because of its ruffling and ability to open many precisely placed blooms on a long flower head. I am always impressed with the beauty and perfection of the ruffling of this variety.

BLUSHING BRIDE

(440) Arenius 1961 80 days Parentage Unknown. Seedling #5628

The deep blush of a bride, aptly describes the ravishing beauty of this exquisite glad. The color is a bright light rosy pink, about the shade of the oldtime favorite, Tivoli. Besides its great beauty, it grows up to 5½ ft. tall, with 7-8 5" blooms open on a long flower head. Above average propagation with healthy foliage and bulbs. Should make a good commercial variety.

Have been very much pleased with past orders. All bulbs have grown well and have had some prize winners.

FIRST AID TO A BEAUTIFUL GARDEN

The glads purchased from you as well as your generous extras have been a source of delight to me each summer. The growth has always been satisfactory and the blossoms very lovely.

Mrs. F. A. R., Strong, Me.

Your bulbs were very nice last year. I received 3-Spike Champions with your White Sails and a small champion with LITTLE DIAMOND.

Mrs. B. E., Barberton, Ohio

I have been getting marvellous flowers from your bulbs for a number of years. I love them all!

Mrs. A. M. J., Round Hill, Va.

I must comment again on the nice quality of your bulbs and your generosity in filling an order. Thanks again!

Mr. C. K. K., Indianapolis, Ind.

Last year was my first time I ordered bulbs from you and I was very pleased. It's a puzzle to me and I'm trying to figure out what you do to your bulbs that grow so healthy. I could pick out ARENIUS bulbs right out from other grower's bulbs — just by looking at the foliage that was healthy dark green.

Mr. E. T., Two Rivers, Wisc.

Bulbs received, all in good condition. Thanks for the many extras. How can you afford to be so generous?

Mr. M. F., Wenonah, N. J.

Heres what we hear about our GLACIER!

One of your GLACIER bulbs in last years order made the Grand Champ spike at the Indiana State Glad Show last summer for me.

Mr. R. E. D., Peru, Ind.

Won a Grand Champ at one show and Recent Introduction section Champ at another with your GLACIER. Also won 3 spike Grand Champ at Norco Show last summer with LANDMARK purchased from you.

Mr. A. T. R., Worcester, Mass.

You sure should have had an All-American with GLACIER — it is beautiful. Haven't heard anything bad about it. Only complaint I have — "I AIN'T GOT NONE!" Maybe I can get some next spring.

Mr. E.N.K., Anderson, Ind.

I would like to list the success we had with GLACIER last year. (1) Best Recent Introduction and Grand Champion Single Spike at LeRoy, Illinois Glad Show. (2) Grand Champion Single Spike at the County Fair — second year in a row. (3) Reserve Champion Three-Spike at Garfield Park, Chicago, Illinois Show. I think GLACIER is the tops in the Gladiolus field today.

Mr. H. E. F., So. Elgin, Ill.

Is your GLACIER as beautiful as everyone says it is?

JOIN A GLADIOLUS SOCIETY

There are gladiolus societies in nearly all localities of the country composed of glad fans of all degrees—from the backyard gardener with a few bulbs to the commercial grower with many acres. With them you may receive the benefit of their publications with most up-to-date information of all kinds pertaining to gladiolus, good fellowship at their shows and meetings (who else can fully appreciate that 8" bloom in your garden?), and a chance to test your growing skill at the many gladiolus shows.

Our leading national society is the NORTH AMERICAN GLADIOLUS COUNCIL — Dues are only \$3.00 per year and entitle you to receive the N.A.G.C. Bulletin — a quarterly publication of all the latest information pertaining to gladiolus — Membership secretary — Mr. Al Trippel, 904 East 7th Street, Auburn, Indiana.

Of international scope is the NEW ENGLAND GLADIOLUS SOCIETY devoted primarily to the home gardener and hobbieist in the gladiolus world. Its fine publications include a year book plus 4 quarterly magazines. Membership is \$4.00 per year. Write to New England Gladiolus Society, Inc., Horticultural Hall, Boston, Mass.

Our Mass. neighbors write:

The bulbs I got from you last year were superb! I was more than thrilled with the beautiful flowers.
Mrs. A. G., W. Springfield, Mass.

You have not improved any with your arithmetic, particularly in adding. Thanks for the many extras.
Mr. F. S. G., Brimfield, Mass.

I am so pleased with the bulbs I got from you last year I want my mother to have some too. (her order enclosed).

For many years (nearly 40), first in Springfield then Charlton and now in my new home in Denmark, Maine your catalog has brought a breath of spring in February and later has come the thrill of opening each new lot of bulbs and watching them develop into breathtaking beauty. In all these years there has never been a failure or a disappointment. Thank you for the big part you have played in this enjoyment.
Mrs. V. M. D., Amherst, Mass.

Have dealt with you for 7 or 8 years and have always been more than satisfied.
Mrs. F. P. L., Denmark, Me.
Mrs. H. N. D., Marshfield, Vt.
